

## CLEMENCEAU'S CABINET TOTTERS AND FALLS MASTER OF FRANCE COMMITS POLITICAL SUICIDE

### SURVIVORS OF ILL FATED SHIP REACH BAY CITY

CREW LIVES TEN DAYS ON  
SHELL FISH AND SEA  
WEED.

(By Associated Press.)  
SAN FRANCISCO, July 20.—The survivors of the gasoline schooner Charles Hansen, which blew up on the Mexican coast June 26, arrived tonight aboard the schooner Newport. The Hansen was loaded with dynamite. When nine days out from San Francisco the engine began to backfire and the supplies and fuel took fire. The crew fought the flames for twenty-four hours, which finally destroyed the vessel and small boats. After the fire had eaten through the decks, nearing the explosives a raft was hastily constructed and the crew abandoned the schooner. Before the men were 400 feet away the flames reached the dynamite, resulting in the complete destruction of the schooner.

### EFFORT BY U. S. TO STOP STRIKE PROVES FUTILE

(By Associated Press.)  
PITTSBURG, July 20.—The first effort ever made by the United States to stop a strike by enjoining both the principals and the commonwealth failed today when the common pleas court sustained the demurrer of the Pressed Steel Car company to a petition for an injunction made by the Public Defense association of Pittsburgh against the company, striking employees and sheriff of Allegheny county. The court said: "We find this court has no right to compel the company to re-employ these men or compel the company to operate its plant again, or pay their men more money or install a new wage system."

### COMPLIMENTS THE SHERIFF'S OFFICE

State Bullion Tax Agent Haley in a communication to the sheriff of Nye county highly compliments that official for the very able manner in which he has attended to the collection of liquor licenses in this county. The letter from Mr. Haley, which in fact is a report, shows that for the quarter ending March 31, 1909, there were collected on account of liquor licenses the sum of \$11,361.50. For the quarter ending June 30, 1909, \$11,464.25, making a grand total of \$22,825.75.

Mr. Haley takes occasion to state that he found the license sources of Nye county in excellent condition and being well cared for by the sheriff of this county. He adds: "I have no recommendation to make that would tend to improve the manner in which this work is being done."

Sheriff Owens is alive to his duties at all times as the report of the license collector bears out.

### HAPPIEST MAN IN TOWN.

Ralph Wardle is about the happiest man in Tonopah. There arrived at his home yesterday a rather young chap who had come to stay. Ralph was so taken up with the chap that he has promised to keep him as long as he wants to stay. He has not yet received a given name, but his last name is Wardle, consequently Ralph is treating the boys to the health of his heir.

### BORN.

In this city, July 20, 1909, to the wife of Ralph Wardle, a son.

(By Associated Press.)  
PARIS, July 20.—The Clemenceau cabinet fell suddenly tonight under the most dramatic circumstances at the conclusion of a violent debate over the naval scandals. M. Delcasse, chairman of the investigating committee, led the attack upon the naval administration, especially during the incumbency of M. Pelletan and M. Thomson, former ministers of marine.

Clemenceau has always been an adversary of Delcasse. Smarting under criticisms and doubtless overconfident of majority, turned to the

ex-minister of foreign affairs, who was thrown over by the Rouvier ministry at the dictation of Germany during the crisis of 1905, and charged him with having led France to humiliation at Algeciras. Instantly there was an uproar on both sides of the chamber. Delcasse flung back the taunt in Clemenceau's face with bitter words, declaring amid them that France had gone to Algeciras in the interest of peace.

Delcasse intimated that Clemenceau inspired the articles in the foreign press during the crisis, but the latter emphatically denied this. Finally Delcasse, explaining the si-

uation of 1905, stated he would have nothing further to say on the subject. He had nothing to fear, that nothing in the memories of twenty-five years embarrassed him.

Turning to Clemenceau he charged the premier with having attacked every government in the past twenty-five years. Clemenceau apparently lost his head. He declared Delcasse was responsible for the greatest humiliation France had experienced in twenty years. The chamber was immediately in an uproar. The vote was taken amidst the wildest excitement and showed the government beaten by a vote of

212 to 176. Clemenceau went to President Fallieres, who seemed stupefied at the incident, but accepted the resignation of the premier and other ministers. The fall of the cabinet was so unexpected that the political world is completely at sea as to who will be the successor. Paris is astonished that Clemenceau should have committed political suicide by recalling the Algeciras sceptre. The Clemenceau ministry was the longest in the history of the third republic. The premier for three years has been the absolute master in France.

## Tariff Bill Transferred from the Capitol to White House

### IT LOOKS LIKE WAR BETWEEN TWO COUNTRIES

(By Associated Press.)  
BUENOS AYRES, July 20.—The Argentine government has sent the Bolivian minister his passports, ordering him to leave within twenty-four hours. Senor Fencasa, Argentine minister to Bolivia, has been recalled. The action follows Bolivia's refusal to accept Argentine's decision in the matter of the boundary dispute between Bolivia and Peru.

Advertise in the Daily Bonanza.

(By Associated Press.)  
WASHINGTON, July 20.—The tariff bill was transferred today from the capitol to the White House. On account of a deadlock because of the attitude of Representative Payne, who has apparently become convinced that he is in the minority, the conferees abandoned the usual afternoon session. Aldrich and Cannon repaired to the White House to consult the president, literally taking the bill with them. What happened between the president and the senate and house leaders could not be learned. Aldrich said that tomorrow would find the conference committee again at work. He expected that by night when all the conferees were to be entertained at dinner by the president most of the problems would have been solved.

It is generally understood that there is considerable difference of opinion between Aldrich and Payne. From a creditable source it is learned that the crisis was reached when an effort was made late yesterday to vote on lumber. Payne protested and argued that such a move would be unfair to the president as this was one of the subjects practically submitted to him for adjustment, provided he could get votes enough in the two houses to adopt compromise rates.

Payne told Aldrich he could vote the senate members of the conference if he choose, but could not vote the house members so easily. Payne is reported to have said that he would not sign the conference report merely because a majority of the house Republican conferees agreed to it.

### SAM LANGFORD IS LOOKING AFTER OTHER OFFERS

(By Associated Press.)  
BOSTON, July 20.—Joe Woodman, manager for Sam Langford, denied tonight he had accepted the terms for a fight before an Ely, Nevada, club for a match between Langford and Ketchel. Woodman says he is considering offers from clubs at Pittsburg, Philadelphia and New York for a match.

## Charged With Trying to Disrupt the Western Federation of Miners

### BUTLER STRIKE SETTLED, BOTH SIDES YIELD

(By Associated Press.)  
BUTLER (Pa.), July 20.—The strike which for four days tied up the Standard Steel Car company's works was settled late today. Thirty-five hundred employees of the plant will return to work tomorrow. Both sides yielded points.

### WINGFIELD GIVES UP AT FREDELEN

LAS VEGAS, July 20.—George Wingfield, F. J. Siebert and associates have discontinued work on the copper claims at camp Fredelen and have cancelled their bond and lease, reverting the properties to Messrs. P. M. McLaughlin, R. H. Sproul and their associates. A large amount of work has been done on the properties, but their value has not as yet been fully demonstrated.

Mr. F. J. Siebert, manager of the property, being interviewed on the subject of closing down the camp, said:

"We have believed in the value of these properties and have shown our faith by the expenditure of a considerable amount of money on them. The short time which we have had to work under our bond has been insufficient for us to demonstrate the property, and at the present time if we could secure more time before making the final large payments on the property we would be glad to proceed with the work in our effort to prove the mine. We are not willing, however, to complete the purchase of the property on the present showing, and the majority of the owners being unwilling to give us the additional time required for development, have simply turned the property back to them and quit."

### BORN.

(By Associated Press.)  
DENVER, July 20.—An effort to rush through before adjournment for the day a settlement of the controversy growing out of the brewery engineers' strike at Butte, Montana, resulted in the adoption of a motion which in retrospect doesn't satisfy any of the parties to the agreement. Another conference will probably be necessary between the national officers of the United Brewery Workers and the Western Federation of Miners. The feature of today's deliberations was the reading of a poster made public in Butte while the strike was in progress. The poster severely criticized the Butte local of the Western Federation and charged the members with attempting to disrupt the organization. Secretary Proebstle of the Brewery Workers admitted having written the poster, and declared he still believed the charges contained therein to be the truth.

## One Who Knows Speaks of Georges Canyon

Yesterday a representative of the Bonanza interviewed Harry Stimler in regard to Georges canyon. Mr. Stimler, who by the way, is a very conservative mining man, prefaced his remarks with a few words concerning Ellendale. His interview follows:

Ellendale on account of the marvelous richness and extent of the ore bodies, the recent strike at his camp is the most sensational that has ever been made in southern Nevada. The Clifford and Nay families, who are the original discoverers and owners of this maroon strike, have been besieged by capitalists to sell their property or incorporate, which offers they have steadfastly refused. They are now sacking ore which runs into thousands of dollars per ton, some of the rock being two-thirds pure gold. Watchmen are employed to guard this treasure night and day, and to sum the matter up briefly, it is without doubt the richest surface specimen ore that has been discovered in the history of mining.

Our company owns two groups of claims in Ellendale, called respectively the "Tiger" and the "Bernice" groups. The "Tiger" group consists of eight compact claims, joining the Clifford group on the southwest, known locally as the "Clifford South Extension." This group has been sought by nearly all mining men looking for ground as the choicest property in the district, aside from the main strike. The original locator and owner, John Nay, one of

the Nay brothers, is my brother-in-law, and through him I secured the property for the Georges Canyon Mines company. On the surface of the Tiger claims in the trend of the main Clifford vein system, may be seen huge ledges of quartz outcropping for great distances and carrying milling values in gold and silver at various places—the indication and forerunner of commercial ore bodies. We have secured the opinions of several of the best engineers who have visited the district, and they all unite in saying that this is the same vein from which the Cliffords are sacking their marvelously rich ore, and that there is good reason to believe that development of the "Tiger" group may at any time prove this ground a bonanza. Very rich float has been found on the Tiger ground, but it has not yet been determined from what portion of the ledge this float has come, as no work has been done except the various location shafts. The first work to be done upon securing a treasury will be to trench the surface in order to determine the source of this rich ore, which surely exists on the Tiger ground. We have received many applications for leases, but have refused all until it is determined which portion to reserve for company workings.

The Bernice group consists of three claims to the north of the Clifford property, and was secured for our company because we believe it to be the north extension of the

(Continued on Page Four.)

### DEFICIENCY BILL IS PASSED BY LOWER HOUSE

(By Associated Press.)  
WASHINGTON, July 21.—The urgent deficiency bill was passed by the house today. The amount carried by it was \$454,809, \$20,408 more than the original sum and included \$25,000 traveling expenses for the president.

### GENERAL COMPTON CALLED TO REWARD

(By Associated Press.)  
LOS ANGELES, July 20.—General Charles Elmer Compton, United States army (retired), died at the home of his son, Paul E. Compton, in Hollywood today. He was born in Mauricetown, New York, in 1836, and served with distinction in the Civil war.

### BRYAN GIVES VIEWS ON TAFT'S STATEMENT

KANSAS CITY, July 19.—After reading President Taft's statement of his position on the tariff, William J. Bryan said he considered it rather equivocal. Mr. Bryan said: "The house did not make a downward revision of the tariff. The acceptance of anything like the house bill cannot result in a reduction of the tariff."

### ORVILLE WRIGHT ESTABLISHED NEW AERO RECORD

NEARLY HOUR AND A HALF  
SPENT IN AIR AT GREAT  
HEIGHT.

(By Associated Press.)  
WASHINGTON, July 20.—Establishing a new record for aviation in America, Orville Wright, in the Wright aeroplane, late today made a spectacular flight of one hour and twenty minutes and forty-five seconds duration. The longest previous flight was forty-five minutes, made at Fort Myer last fall. The machine traveled about seventy miles. It was estimated by Wilbur Wright at one time during the flight of the machine that it ascended to a height of between 260 and 280 feet, exceeding the highest point ever reached by an heavier-than-air machine on this continent. During the flight Orville executed three complete "figure eights." The machine at one time was brought to within five feet of the ground, then gradually rose to seventy-five feet before making a turn.

### ROOSEVELT TAKES TIME OFF TO WRITE A BOOK

(By Associated Press.)  
NAIVASHA, July 20.—Colonel Roosevelt, stopping at the ranch of Captain Richard Attenborough, has done no shooting since last Thursday. Instead, he has remained in camp writing a book. The party will arrive at Naivasha Wednesday, remaining three days, then proceeding to Nairobi.
